Tile replacement board

Maximum sealing

- + Innovative
- + Flexibly adaptable to almost any pan shape
- + Quick and easy installation
- + No time-consuming cutting of the roof tile necessary
- + Cost-effective
- + Elegant look
- + No bag formation with water accumulation

Technical data

Utilisation:	Universal for tiled roofs
Minimum roof pitch*:	15°
Connection:	Disc head screws
Mounting:	Roof parallel
Dimensions:	470 x 620 mm
Roof condition:	The static load-bearing capacity of the roof structure and the building support structure must be ensured on site

*Standard roof pitch can be undercut in accordance with ZVDH specifications.

Tile replacement board

Compatibility

Note: this sheet contains recommendations, installation must always be assessed by a specialist on site.

Note: the tile types listed have already been tested in the factory. All brands not mentioned must be tested for usability on site.

However, the actual installability of the tile replacement board must always be assessed by a specialist on site.
